

Fuaad Khan

GIS Supervisor | Enterprise GIS & Data Engineering Leader

Redlands, CA 92373 | (909) 921-2130 | fuaadetl@gmail.com | fuaadkhan.com

PROFESSIONAL SUMMARY

Public-sector GIS Supervisor with 6+ years of progressive experience in enterprise GIS administration, data engineering, full-stack development, and applied AI. Promoted from GIS Coordinator to Supervisor at the City of San Jacinto after building the city's enterprise GIS program from the ground up and leading a production computer-vision pipeline for automated infrastructure detection. Combines a Geography/GIS degree from UCLA, hands-on ETL/data engineering background, and direct supervisory experience.

CORE COMPETENCIES

GIS Platforms:	ArcGIS Enterprise, ArcGIS Online, ArcGIS Pro, ArcMap, QGIS, Experience Builder, Field Maps
Programming:	Python (ArcPy, GeoPandas), JavaScript, HTML, CSS, React, SQL, T-SQL/P-SQL
Data Engineering:	MS SQL Server (SSIS, SSAS, SSRS), ETL pipeline design, enterprise geodatabases
Leadership:	Staff supervision and hiring, project management, vendor administration

PROFESSIONAL EXPERIENCE

GIS Supervisor — City of San Jacinto, CA

San Jacinto, CA | May 2025 – Present

- Promoted from GIS Coordinator to lead the city's enterprise GIS program, supervising staff and directing GIS strategy across all municipal departments.
- Architected an AI-driven infrastructure detection pipeline (GoPro mobile mapping, YOLOv8 object detection, Python geospatial automation) to identify and geolocate potholes and traffic assets at scale.
- Led ArcGIS Enterprise upgrade planning from 10.9.1 to 11.5 using the webgisdr side-by-side migration workflow.
- Built and led a structured hiring process for a GIS Technician position, including a technical map-critique exercise and a calibrated interview question set.
- Developed a resident-facing Zone Lookup web application for water rate information, with custom Calcite styling and Experience Builder integration on the city website.

GIS Coordinator — City of San Jacinto, CA

San Jacinto, CA | Jul 2021 – May 2025

- Served as the city's sole GIS staff member, establishing and administering test and production ArcGIS Enterprise servers from the ground up.
- Implemented an ArcGIS Online Collaboration to foster seamless sharing of GIS resources across the organization.
- Pioneered the city's first Open Data website and implemented ArcGIS Online Collaboration for cross-departmental data sharing.
- Integrated GIS infrastructure with Tyler Technologies' Enterprise Permitting & Licensing (EPL) and OpenGov's Enterprise Asset Management (EAM) to streamline permitting and asset management workflows.
- Designed and shipped a public-facing geospatial drafting web app (Leaflet.js, esri-leaflet, Nearmap) with a Node.js/Express credential proxy under IIS.
- Acquired and administered GIS layers spanning Community Development, Planning, Code Enforcement, Public Utilities, and Finance.

Project Coordinator / GIS Data Analyst — City Net SoCal

Anaheim, CA | Oct 2020 – Jul 2021

- Maintained Homeless Management Information System (HMIS) data to HUD standards and authored SQL queries to produce shelter intake and case management reports.
- Built daily Power BI dashboards for City of Anaheim staff and Anaheim PD supporting the Community Care Response Team dispatch program.
- Produced custom ArcGIS map products for Orange County's Point-in-Time (PIT) homeless count and automated reporting workflows with Python.

ETL Developer / Data Engineer — University of California, Riverside

Riverside, CA | Feb 2016 – Dec 2016

- Designed and delivered ETL pipelines on the Microsoft data platform (SSIS, SSAS, SSRS) supporting university ERP reporting.
- Presented analytic findings to stakeholders and produced technical design specifications for ERP systems integrations.

EDUCATION

Bachelor of Arts, Geography — Minor in Geographic Information Systems and Technologies

University of California, Los Angeles (UCLA) | Sep 2018 – Jun 2020
